

SISTEM PENGENDALIAN INTERNAL

INTERNAL CONTROL SYSTEM

Sistem pengendalian intern merupakan mekanisme pengawasan yang ditetapkan oleh manajemen Bank secara berkesinambungan yang dilaksanakan oleh seluruh manajemen dan karyawan di setiap jenjang organisasi Bank Jatim. Sistem Pengendalian Internal (SPI) di Bank Jatim menggunakan pendekatan COSO (*Committee of Sponsoring Organization of the Treadway Commission*) dimana penerapan ERM (*Enterprise Risk Management*) melibatkan seluruh komponen perusahaan yaitu manajemen dan karyawan.

Pemantauan risiko dilakukan terhadap besarnya untuk mengidentifikasi suatu kejadian atau potensi kejadian yang dapat menimbulkan kerugian, eksposur risiko, kepatuhan terhadap limit internal, dan konsistensi pelaksanaan dengan kebijakan dan prosedur yang ditetapkan dengan tujuan untuk menjamin pencapaian tujuan perusahaan.

Bank terus berupaya menerapkan sekaligus mengembangkan Sistem Pengendalian Internal pada semua tingkatan fungsional sesuai struktur organisasi Bank yang dirancang untuk memberikan keyakinan memadai tentang pencapaian empat tujuan berikut ini:

- Meningkatkan kepatuhan dan disiplin terhadap ketentuan yang berlaku dalam mewujudkan pelaksanaan sistem perbankan secara sehat, efektif dan efisien.
- Memastikan kewajaran dan keandalan akurasi Laporan Keuangan (Pos-pos Neraca & Rugi Laba, Rekening Administratif) sesuai dengan sistem prosedur dan ketentuan yang berlaku.
- Memastikan bahwa sistem pengendalian internal berkaitan dengan pelaksanaan operasional Bank terutama penerapan manajemen risiko, pelaksanaan *Good Corporate Governance* utamanya kepatuhan terhadap hukum dan peraturan yang berlaku sehingga dalam pencapaian sasaran yang telah ditetapkan oleh manajemen, telah cukup, efektif dan aman.
- Memastikan bahwa seluruh kegiatan operasional Bank tidak terjadi *Fraud* dan memastikan berjalannya sistem *whistleblowing*.

TUJUAN PENERAPAN SPI BANK JATIM

- Efektivitas dan efisiensi operasi, yang menjamin semua kegiatan usaha Bank telah dilaksanakan sesuai dengan ketentuan dan peraturan perundang-undangan yang berlaku, baik ketentuan yang dikeluarkan oleh pemerintah, otoritas pengawasan Bank maupun kebijakan, ketentuan dan prosedur intern yang ditetapkan oleh Bank.
- Keandalan pelaporan keuangan, untuk menyediakan laporan yang benar, lengkap, tepat waktu dan relevan yang diperlukan dalam rangka pengambilan keputusan yang tepat dan dapat dipertanggungjawabkan.
- Kepatuhan terhadap hukum dan peraturan yang berlaku, guna meningkatkan efektivitas dan efisiensi dalam menggunakan aset dan sumber daya lainnya dalam rangka melindungi Bank dari risiko kerugian.
- Mengurangi dampak kerugian, mencakup kerugian akibat dari penyimpangan termasuk kecurangan/fraud dan pelanggaran aspek kehati-hatian.

The internal control system is a supervisory mechanism established by the Bank's management on an ongoing basis that is carried out by all management and employees at every level of the Bank Jatim organization. The Internal Control System (SPI) at Bank Jatim uses the COSO (Committees of Sponsoring Organization of the Treadway Commission) approach where the implementation of ERM (Enterprise Risk Management) involves all components of the company, namely management and employees.

Risk monitoring is carried out on the magnitude to identify an event or potential event that can cause harm, risk exposure, compliance with internal limits, and consistency in implementation with policies and procedures established with the aim of ensuring the achievement of company goals.

The Bank continues to implement and at the same time develop the Internal Control System at all functional levels according to the organizational structure of the Bank which is designed to provide adequate confidence regarding the achievement of the following four objectives:

- Improve compliance and discipline of applicable regulations in realizing the implementation of the banking system in a healthy, effective and efficient manner.
- Ensuring the fairness and reliability of the accuracy of Financial Statements (Balance Sheet & Income, Administrative Accounts) in accordance with the prevailing system of procedures and regulations.
- Ensuring that the internal control system is related to the implementation of the Bank's operations, especially the implementation of risk management, the implementation of Good Corporate Governance, especially compliance with applicable laws and regulations so that the achievement of targets set by management is sufficient, effective and safe.
- Ensuring that all Bank operational activities do not occur Fraud and ensuring the whistleblowing system is running.

OBJECTIVES OF INTERNAL CONTROL SYSTEM IMPLEMENTATION

- The effective and efficient operations, which guarantee that every business banking activities has carried out and aligned with the applicable laws and regulations, both provisions issued by the governance, bank supervisory authorities and internal policies, provisions, and procedures stipulated by the bank.
- Financial reporting reliability, to provide accurate, complete, on scheduled and relevant reports as needed in the context of appropriate and accountable based-decisions making.
- Compliance with applicable laws and regulations, to increase effectiveness and efficiency in assets utilization and other resources to protect the potential risk of banking loss.
- Reduce the impact of losses, including losses due to an act of violation, such as fraud and the principles of prudence violations.

- Efektivitas budaya risiko (*risk culture*), yang dimaksudkan untuk mengidentifikasi kelemahan dan menilai penyimpangan secara dini dan menilai kembali kewajaran kebijakan dan prosedur yang ada di Bank secara berkesinambungan.
- Improve risk culture effectiveness, with the intention to identify weaknesses and deviations as early as possible and re-assessment the policies and procedures fairness of bank sustainability.

PENERAPAN SISTEM PENGENDALIAN INTERN, KEUANGAN DAN OPERASIONAL SERTA KESESUAIAN DENGAN COSO - INTERNAL CONTROL FRAMEWORK

Penerapan Sistem Pengendalian Intern Bank mengacu pada COSO (*Committee of the Sponsoring Organizations of the Treadway Commission*) - *Internal Control Integrated Framework* dalam menyusun kerangka kerja pengendalian intern yang memastikan kecukupan pengendalian operasional maupun finansial, pelaporan keuangan, efektivitas dan efisiensi operasional, serta kepatuhan terhadap hukum dan peraturan yang berlaku.

Pengendalian intern Bank diterapkan atas dua aspek yaitu pengendalian operasional dan pengendalian keuangan. Pengendalian intern atas operasional dan pelaporan keuangan Bank dijalankan dengan mengacu pada acuan internasional COSO - *Internal Control Integrated Framework*. Disebutkan dalam COSO bahwa pengendalian internal merupakan sistem atau proses yang dijalankan oleh Dewan Komisaris, Direksi, Manajemen serta karyawan dalam sebuah perusahaan, untuk menyediakan jaminan yang memadai demi tercapainya tujuan pengendalian.

COSO - *Internal Control Framework*, terdiri dari 5 (lima) komponen pengendalian yaitu:

Lingkungan pengendalian (control environment). Faktor-faktor lingkungan pengendalian mencakup nilai etis, dan kompetensi dari orang dan entitas, filosofi manajemen dan gaya operasi yang mengutamakan integritas dan nilai-nilai perusahaan yang diimplementasikan dalam pengendalian manajemen menjadi acuan sebagai standar perilaku perusahaan yang dikenal dengan EXPRESI (*Excellence, Professional, Integrity, Synergy, Innovation*).

Dalam hal ini Dewan Komisaris juga turut melakukan monitoring terhadap evaluasi pelaksanaan pengendalian intern yang dibuat oleh auditor intern dan auditor ekstern dengan tujuan memastikan adanya perbaikan terhadap permasalahan Bank yang dapat mengurangi efektivitas pengendalian intern. Manajemen juga menetapkan Struktur Organisasi Pengendalian Internal yang efektif dan menempatkan individu yang kompeten dan efektif dalam penyusunan pelaporan keuangan.

Penaksiran risiko (risk assessment). Manajemen mengidentifikasi, menganalisis, mengukur risiko-risiko untuk menyakinkan kecukupan bahwa risiko pada sebuah perusahaan dikelola sesuai dengan batasan risiko (*risk appetite*) yang relevan terhadap bisnis dan operasional Bank guna mencapai rencana bisnis yang ditetapkan, dengan menetapkan kriteria identifikasi risiko dan pengelolaan risiko untuk menghasilkan pelaporan keuangan yang dapat diandalkan.

Mekanisme yang ditetapkan untuk mengidentifikasi risiko yang ada pada Bank Jatim menggunakan metode *Risk Based Audit* yaitu pengambilan sampling atas dasar pertimbangan dan perhitungan yang dapat dipertanggung jawabkan dan mewakili populasi data dengan prioritas yang memiliki risiko tinggi dan pada aktivitas yang *risk control* sistemnya lemah.

IMPLEMENTATION OF INTERNAL CONTROL SYSTEM, FINANCE, AND OPERATIONS, AND CONFORMITY TO COSO - INTERNAL CONTROL FRAMEWORK

The implementation of the Bank's Internal Control System refers to the COSO (Committee of the Sponsoring Organizations of the Treadway Commission) - Internal Control Integrated Framework in compiling an internal control framework that ensures the adequacy of operational and financial controls, financial reporting, operational effectiveness and efficiency, and compliance with law and applicable regulations.

The Bank's internal control is applied to two aspects, namely operational control and financial control. Internal control over the operations and financial reporting of the Bank is carried out with reference to the international reference COSO - Internal Control Integrated Framework. It is stated in COSO that internal control is a system or process carried out by the Board of Commissioners, Directors, Management and employees in a company, to provide adequate guarantees for the achievement of control objectives.

COSO - Internal Control Framework consists of 5 (five) control components, namely:

Control Environment. The factors of environment control include ethical values, the people and entities competency, management philosophy and operation approach prioritized integrity and corporate values which implemented in management control functions as a reference and standard of corporate behavior, well-known as EXPRESI (Excellence, Professional, Integrity, Synergy, Innovation).

In terms of this, the Board of Commissioners also monitors the implementation evaluation of internal controls which is conducted by internal and external auditors aims to ensure there is an improvement on solving banking problems can potentially reduce the internal controls effectiveness. The establishment of effective Internal Control Organization Structure initiated by the Management assigned competent and effective individuals to take place in the financial reporting preparation.

Risk assessment. The management identifies, analyzes, measures risks to ensure the adequacy risk management aligned with the risk appetite relevant in the business and banking operations to actualize a business plan objectives, by setting criteria for risk identification and management aims to create reliable financial reporting.

The establishment of work mechanism to identify the existing risks at Bank Jatim apply a Risk-Based Audit method, which is sampling based on considerations and accountable calculations represents the data population upon priorities hold a potentially high risk and financial activity in the fragile state of a risk control system.

Aktivitas pengendalian (control activities). Tindakan yang diambil manajemen dalam rangka pengendalian intern berkaitan dengan pelaksanaan operasional Bank terutama penerapan manajemen risiko, pelaksanaan *Good Corporate Governance* dalam pencapaian sasaran yang telah ditetapkan oleh manajemen, telah cukup, efektif dan aman. Utamanya dengan melakukan langkah-langkah antara lain evaluasi ataupun pengkinian terhadap kebijakan dan prosedur, serta evaluasi terhadap keamanan keseluruhan fungsi bisnis dan aplikasi maupun jaringan yang termasuk dalam *Business Continuity Management*.

Informasi dan komunikasi (information and communication). Memperkuat jalur komunikasi yang efektif dengan sistem yang memungkinkan pendistribusian informasi dan komunikasi secara cepat dan akurat guna mendukung pemahaman dan pelaksanaan tujuan pengendalian internal, proses dan tanggung jawab yang melibatkan Dewan Komisaris, manajemen, divisi terkait hingga karyawan, yang dirancang untuk memberikan keyakinan memadai tentang pencapaian tujuan perusahaan.

Pemantauan (monitoring). Dalam rangka memastikan mutu pengendalian internal secara berkelanjutan maupun periodik dan telah berjalan serta telah dilakukan perbaikan yang diperlukan sesuai kondisi yang ada, yakni dengan melakukan pemantauan yang terus menerus (*on going monitoring*). Mekanisme pemeriksaan pasif/offsite atau evaluasi terpisah (separate evaluation) dilakukan terpusat pada Kantor Pusat Divisi Audit Intern dengan melakukan pengamatan, penelitian dan analisa terhadap aktivitas fungsional Bank dan kinerja cabang dengan tujuan untuk memperoleh informasi sedini mungkin dan mengidentifikasi permasalahan di cabang untuk mengambil tindakan korektif kepada pihak yang bertanggung jawab.

EVALUASI EFEKTIVITAS SISTEM PENGENDALIAN INTERNAL

Dalam optimalisasi penerapan Tata Kelola yang menerapkan prinsip *transparency, accountability, responsibility, independency and fairness*, Bank melakukan evaluasi efektivitas penerapan Sistem Pengendalian Internal (SPI) secara berkesinambungan. Evaluasi dititikberatkan pada aktivitas fungsional dan proses bisnis yang memiliki risiko tinggi baik karena adanya perubahan kondisi intern dan ekstern ataupun terkait perkembangan usaha Bank yang terus berjalan.

Pemantauan proses bisnis atas penerapan SPI, dilakukan oleh satuan kerja operasional maupun Divisi Audit Intern Bank. Hasil evaluasi pelaksanaan tersebut dijadikan sebagai salah satu dasar evaluasi Manajemen Bank terhadap implementasi efektivitas SPI untuk menentukan perbaikan ataupun penyempurnaan sistem pengendalian yang memungkinkan manajemen meningkatkan efektivitas kegiatan operasional sekaligus meminimalkan risiko yang merugikan perusahaan. Evaluasi terkait efektivitas SPI untuk selanjutnya diperbaiki dalam bentuk pedoman maupun Surat Edaran ke unit kerja operasional, sehingga Bank telah memiliki SPI yang memadai atas pencapaian tujuan.

Control Activities. The initial action taken by management in the context of internal control which is also related to the bank operations implementation, particularly the risk management application, the Good Corporate Governance implementation to actualize the targeted standard by management has proven sufficient, effective and safe. In general, take steps such as evaluation or policies and procedures update, as well as evaluating the entire business functions, applications, and networks security as included in Business Continuity Management.

Information and Communication. Strengthen effective communication channels with systems enabled the information and communication distribution immediately and accurately to reinforce the understanding and implementation of internal control objectives, processes, and responsibilities involving the Board of Commissioners, Management, related Divisions to employees, as designed to provide adequate belief about the actualization of its objective.

Monitoring. To ensure the quality of internal control system sustainable and periodic has carried out and the necessary improvements in the making aligned with existing conditions, particularly by continuous monitoring (ongoing monitoring). Passive/off-site inspection mechanisms or separate evaluation is centrally conducted by the Internal Audit Division Head Office with the observations, research, and analysis of bank functional activities and branch performance aims to obtain information in the shortest possible time and identifying Branch problems so it can take corrective action to the responsible parties.

EVALUATION ON THE EFFECTIVENESS OF INTERNAL CONTROL SYSTEM

In optimizing Governance implementation that applies the principles of transparency, accountability, responsibility, independence and fairness, the Bank evaluates the effectiveness of the implementation of the Internal Control System (SPI) on an ongoing basis. Evaluation focuses on functional activities and business processes that have high risks due to changes in internal and external conditions or related to the ongoing development of the Bank's business.

Monitoring of business processes on the implementation of SPI, is carried out by the operational work units and the Bank Internal Audit Division. The results of the evaluation of the implementation serve as one of the bases of the evaluation of the Bank's Management on the effectiveness of the SPI to determine the improvement or improvement of the control system that enables management to increase the effectiveness of operational activities while minimizing risks that harm the company. Evaluations related to the effectiveness of SPI will be further improved in the form of guidelines and Circular Letters to operational work units, so that the Bank has adequate SPI for the achievement of objectives.
